Christian's Zman's 5e Tweaks v2.0 v0.1

- Updated 31-03-18

Preface

I love 5e, but here are a couple of things that bother me and could use tweaking. I'm not trying to reinvent the wheel or rewrite the game. These tweaks are meant to be easy to apply patches that enhance balance and gameplay while simultaneously opening up more viable options. There is also some new content in the form of New Feats meant to fill some missing niches and give a few more options. Think of it as a balance patch meant to iron out a few wrinkles and I welcome feedback.

Love 5e, but wish it was a touch more balanced? Wish some things made a bit more sense? Wish some options were more viable or others less no-brainers? Give Zman's 5e Tweaks a look. Take caution when applying any individual Tweak as they are intended to function as a whole. Currently only for the PHB. Additionally there is a Weapons and Armor Tweak, as well as an E10 Variant. There may exist a couple of references in this document to those documents.
